---

### In Attendance:

#### Voting Members

Jackson Fox  
Karl Hough  
Patrice Lee  
Dr. Hanley

#### Non-Voting Members

#### Facilitation Team

Michelle Ohnesorge

---

## Work Group Discussion

---

- Update on Point Source offset agreement?
  - What are the other options if this agreement doesn't go through?
    - Permanent Fund
    - Grants
- Any funds need to go to control measures or programs that are going to directly reduce pm2.5
  - Not exclusively in the non-attainment area, everyone should be able to have access to devices/programs that bring cleaner air
- Revolving fund that supports a few, specific programs
  - GVEA tariff for anyone who shuts off their stove during a burn ban
  - "Fuel Stamps" to help those transition to different fuels with possible higher costs
  - New heating device change-out program (Air shed grants)
