
Funding Work Group – July 20, 2018

In Attendance:

Voting Members

Dr. Owen Hanley
Arthur (AJ) Sutton
Jackson Fox
Karl Hough

Non-Voting Members

Nick Czarnecki

Facilitation Team

Michelle Ohnesorge

Work Group Discussion

- Main focus on “where” and “what”
 - Where the funding is coming from
 - Point Sources offset/remediation program
 - Federal Grants
 - Approach congressional delegation
 - Heating Device Fee
 - \$100 fee on property tax for all heating devices
 - Get deduction based on proving the type of device
 - If you don’t want someone coming in a verifying device you can just pay the fee
 - Important how we advertise this
 - What the funding will be used for
 - Revolving fund for new change out program
 - Specific suggestions for households on what devices to switch to
 - Subsidize ULSD
 - Revolving loan fund for heating devices/energy retrofits/home loans
 - Stakeholder 1
 - This control measure should be open to all wood users, not just stage one and NOASH, for a certain amount of time to help people switch devices over time
- Other Discussion
 - Building codes- privatize the inspections and prove this to FNSB
 - The possibility that point sources won’t be allowed to do the offset/remediation program
 - Not going to be able to do offset, BACT, and MSM
